Ceramiche Daytona da sempre orientata alla ricerca di tecnologie e processi produttivi innovativi, riserva una speciale attenzione alla realizzazione del supporto (detto anche biscotto). Il supporto è corpo e anima stessa della piastrella ceramica. Grazie alla cura nella scelta delle materie prime utilizzate nell'impasto, il supporto BINATURAL® assume una colorazione particolarmente chiara che permette di esaltare i valori estetici di ogni singolo prodotto.

Ma non solo! Ceramiche Daytona, alla costante ricerca di soluzioni tese alla salvaguardia dell'ambiente e di prodotti sempre più eco-sostenibili, utilizza per BINATURAL® pregiati impasti contenenti un'elevata percentuale di materiale riciclato post-consumo.

Ceramiche Daytona, always geared to research into innovative technologies and production processes, pays special attention to the construction of the tile body (also called bisque).

The tile body is the heart and soul of the ceramic tile. Thanks to the care taken over the selection of the raw materials used in the mixture, the BINATURAL® tile body takes on a particularly pale colour that enables exalting the aesthetics of each single product.

But there's more! Ceramiche Daytona, in a constant quest for solutions geared to protecting the environment and more and more eco-sustainable products, uses premium mixtures for BINATURAL® containing a high percentage of post-consumption recycled material.

Ceramiche Daytona, depuis toujours orientée vers la recherche de technologies et de processus de production innovateurs, réserve une attention spéciale à la réalisation du support (appelé également biscuit).

Le support est le corps et l'âme de la dalle de céramique. Grâce au soin apporté au choix des matières premières utilisées dans la pâte, le support BINATURAL® assume une coloration particulièrement claire qui permet d'exalter les valeurs esthétiques de chaque produit.

Ce n'est pas tout! Ceramiche Daytona, toujours à la recherche de solutions visant à sauvegarder l'environnement et de produits de plus en plus éco-durables, utilise pour BINATURAL® une pâte de qualité contenant un fort pourcentage de matériel recyclé post-consommation.

Ceramiche Daytona stellt von jeher die Forschung nach innovativen Technologien und Produktionsprozessen in den Mittelpunkt und verwendet daher besonders viel Aufmerksamkeit auf die Herstellung des Scherben.

Der Scherben ist Korpus und Seele der Keramikfliese. Dank der sorgfältigen Auswahl der für die Mischung verwendeten Rohstoffe nimmt der Scherben BINATURAL® eine besonders helle Farbe an, die die ästhetischen Vorzüge jedes einzelnen Produkts unterstreicht.

Aber nicht nur! Ceramiche Daytona bemüht sich konstant um umweltfreundliche Lösungen und um die Herstellung immer nachhaltigerer Produkte und verwendet daher für BINATURAL® kostbare Mischungen mit einem hohen Anteil an Recyclingmaterialien aus Konsumgütern.

## CONDIZIONI DI VENDITA

### 1 - APPLICABILITÀ DELLE CONDIZIONI

1.1. Le Presenti condizioni generali (qui di seguito "le CONDIZIONI") costituiscono parte integrante di tutti i contratti di vendita delle piastrelle ed altro materiale ceramico (qui di seguito "il/i PRODOTTI") a cui sia parte CERAMICHE DAYTONA S.p.A. (qui di seguito "il FABBRICANTE"). Salvo singoli casi in cui esse siano state derogate con espresse pattuizioni scritte a firma del FABBRICANTE, esse costituiranno la disciplina esclusiva di tali vendite. Se una o più parti di tali CONDIZIONI o dei singoli contratti che le includano risultassero invalide, le CONDIZIONI generali o particolari resteranno valide nel loro complesso; le parti invalidi saranno sostituite con pattuizioni che si avvicinino il più possibile alla originaria volontà delle parti.

### 2 - CONCLUSIONE DEL CONTRATTO DI VENDITA CONSEGNA DEI PRODOTTI

2.1. Il contratto si intende concluso al momento in cui il proponente o l'ordinante vengano a conoscenza del consenso scritto della controparte.

2.2. L'ordine non confermato per iscritto in nessun caso potrà intendersi accettato salvo esecuzione del medesimo da parte del FABBRICANTE mediante spedizione o consegna dei PRODOTTI.

La consegna parziale di PRODOTTI ordinati non comporta l'accettazione dell'intero ordine, ma solo di quella parte di PRODOTTI effettivamente consegnati.

2.3. Salvo diverso accordo scritto, la consegna dei PRODOTTI e la resa degli stessi in Italia e all'estero avverrà secondo la formula di "Franco Fabbrica".

2.4. Salvo diverso accordo, tutte le date indicate come termine di consegna si intendono a titolo indicativo.

### 3 - CARATTERISTICHE DEI PRODOTTI - GARANZIA - RECLAMI

3.1. Le piastrelle in ceramica ed altri PRODOTTI ceramici fabbricati da CERAMICHE DAYTONA S.p.A. sono conformi alle norme europee UNI-EN.

Il FABBRICANTE vende esclusivamente a Rivenditori professionali, questi sono responsabili della correttezza delle informazioni tecniche fornite agli utilizzatori finali e/o negozi al dettaglio. La classificazione del prodotto è indicata dal FABBRICANTE sul materiale pubblicitario e/o sui listini prezzi, l'Acquirente deve di conseguenza utilizzare i PRODOTTI sulla base della classificazione fornita dal FABBRICANTE. Per facilitare le indicazioni di utilizzo, ed adattare le classificazioni standard alle specificità della produzione del Fabbricante, a fronte di ogni prodotto, nei listini o sui cataloghi sono posti dei segni che indicano l'uso specifico consigliato dal FABBRICANTE.

3.2. Le differenze di tonalità non sono un difetto del PRODOTTO bensì una caratteristica dello specifico materiale cotto ad alte temperature. Il particolare requisito di ingelività si applica solo ai PRODOTTI che il FABBRICANTE garantisce espressamente con apposita indicazione sul materiale pubblicitario e/o listini. In mancanza di tale indicazione i materiali ceramici si considerano solo ed unicamente per uso in interni o comunque in locali protetti dalle intemperie.

3.3. I materiali in ceramica con superficie lucida non possono mai essere utilizzati in locali a piano terreno con accesso all'esterno, né in locali in cui sia previsto un grande calpestio. Le piastrelle brillanti sono inoltre suscettibili di una certa scivolosità, specialmente se bagnate, il FABBRICANTE ne sconsiglia di conseguenza l'uso in locali pubblici. Per i locali ove sia previsto un grande calpestio l'acquirente dovrà acquistare solo i PRODOTTI classificati dal FABBRICANTE come PEI V, ed in particolare quelle piastrelle che il FABBRICANTE consiglia SPECIFICAMENTE per uso in locali pubblici.

3.4. Le rappresentazioni dei PRODOTTI sui depliant ed altri materiali pubblicitari del FABBRICANTE sono puramente illustrative e non rappresentano necessariamente il risultato estetico finale di posa del PRODOTTO rappresentato.

3.5. Il FABBRICANTE garantisce la buona qualità e l'assenza di vizi nei PRODOTTI forniti. La garanzia non si applica per PRODOTTI classificati dal FABBRICANTE per qualità inferiori alla 1° scelta o per partite di PRODOTTI di fine serie, vendute in blocco e segnalate come partite speciali. È comunque prevista una tolleranza del 5%.

3.6. Il FABBRICANTE non è responsabile per vizi e/o anomalie rilevate sui PRODOTTI non dovuti alla qualità dei PRODOTTI stessi ma all'uso improprio degli stessi da parte degli acquirenti e/o dei suoi aventi causa. In particolare il FABBRICANTE non accetta reclami o contestazioni in relazione alle situazioni precedentemente descritte.

3.7. I reclami devono essere comunicati dall'acquirente al FABBRICANTE entro 8 giorni dalla consegna della merce. Per vizi occulti il termine è di otto giorni dalla scoperta del vizio.
