Tiles for every home
Плочки за всеки дом

EN KAI boasts a rich history brought to life through the manufacture of ceramic tiles, porcelain and a variety of decorative products. Today, as a part of Mohawk Industries, KAI is the largest ceramic tile manufacturer in Bulgaria and one of the largest tile manufacturers in the Balkan region, with annual capacity of more than 28 mln m2 production.

We currently operate 2 manufacturing facilities in Bulgaria - Khan Asparuh factory in Isperih and Khan Omurtag factory in Shumen, with their HQ in Sofia. As the nation's top tile manufacturer, we abide by the highest industry standards. From corporate ethics to sustainability, our commitment to the earth and to our customers remains the same: creating quality products that people and businesses can trust and believe in.

Home is not just a place, it is a feeling. For some people, interior style should be classical - warm and cozy, for others - trendy or even eccentric, but for all of us the home is where we can be ourselves. We believe that the ceramic tiles are not just flooring or wall cladding but are part of family life. Our mission is to create productions for those, who appreciate the comfort, warmth and peace of the home and do not make compromise with the quality.

BG KAI има богата история и традиции в производството на керамични плочки – теракот, фаянс и гранитозрес, както и разнообразие от декоративни продукти. Днес, като част от Mohawk Industries, KAI е най-големият производител на керамични плочки в България и един от най-големите производители на Балканите, с годишен капацитет от над 28 млн. м2.

Разполагаме с 2 производствени мощности в България - завод "Хан Аспарух" в гр.Исперих и "Хан Омуртаг" в гр. Шумен, с централен офис в София. Като производител на керамични изделия ние се придържаме към най-високите стандарти в бранша. От корпоративната етика до устойчивостта, нашият ангажимент към природата и нашите клиенти остава същият: създаване на качествени продукти, на които хората и бизнеса могат да се доверят и да вярват.

Домът не е просто място, той е чувство. За някои стилът в интериора трябва да е класически – топъл и уютен, за други модерен или дори ексцентричен, но за всички нас домът е там където можем да бъдем себе си. В KAI Груп вярваме, че керамичните плочки, които произвеждаме, са не просто настилка за пода или облицовка за стената, а са част от живота на семейството. Мисията ни е да създадем продукти, за хората, които ценят уютта, топлината и спокойствието на дома и не правят компромис с качеството.

Wall tiles

The development and implementation of new technologies turns porcelain into a covering that recreates the beauty of the natural materials. With its advantages - frost, moisture and scratch resistance, easy maintenance, the porcelain tiles are among the preferred products on the market. Used for floors, walls they became an interesting accent, bringing interesting textures and finishes in unexpected places. Appearance of real natural material, but with all the advantages of porcelain tiles. Suitable indoors or outdoors, as well as private and commercial / residential buildings.

Stones in his variety of sizes, surfaces and designs are offered in large portfolio of colors and structures. Many types of stones are available such as basalt, limestone, sandstone, quartzite, travertine, slate, gneiss and granite. Structured tiles are incredibly aesthetically versatile too, meaning that they can be deployed to great effect to create visual intrigue as part of pared-back industrial-inspired design schemes, or teamed with similarly colored plain tiles to produce a zoning effect within the space. The colors and infinite shades of natural stones give the ceramic tiles inspired by them a unique personality and a bold character.

Unglazed tiles (well known as Salt & Pepper) are great choice for those, looking for a high slip resistant surface. For areas with heavy foot traffic, as well as outdoor applications, unglazed tiles are a very good choice. Along with safety benefits, unglazed ceramic and porcelain tiles are sought after because of their scratch resistance and natural beauty. Since they're colored by the mineral deposits from where the clay was originally taken, these tiles offer an earthy aesthetic quality.

PLACING REQUIREMENTS

It is required the use of minimum joint (aprox.1.5mm). We recomend that the joints are laid in staggered format with the maximum of the joints to be laid 20% of the lenght.
